RE: Addendum to Notice of *Ex Parte* Communication filed 8/29/2016  
Legal Counsel Memorandum Regarding FCC Authority To Mandate Technical Solution  
Regarding Promoting Technical Solutions to Combat Contraband  
Wireless Device Use in Correctional Facilities- GN Docket 13-111

Dear Ms. Dortch,

My name is John Fischer. I am the CEO of Try Safety First, Inc. I am submitting this addendum and attachment to you in accordance with Section 1.1206 of the FCC's rules, 47 C.F.R. § 1.1206.

*As filed on Aug. 29<sup>th</sup> - On Thursday, August 25<sup>th</sup> 2016, Robert J. Smyjunas (advisor to Try Safety First), Hap Nguyen (engineer for Try Safety First) and myself had two separate meetings with FCC personnel at the FCC location address listed above. In the first meeting, members of the FCC in attendance were David Furth from Public Safety & Homeland Security, Jean Kiddoo, Roger Noel and Moslem Sawez from the Wireless Bureau along with Melissa Conway from the Mobility Division. In the second meeting all FCC members were from the Office of Engineering and Technology consisting of Julius Knapp, Ira Keltz, Bruce Romano, and Walter Johnston. Ex Parte Communication referencing these meetings was filed on 8/29/2016 as follows:*

*During the meetings, I demonstrated technology to disable contraband cell phones and I discussed various aspects of our recently released peer reviewed white paper which is attached herein. In particular, we discussed the operational capabilities of the technology and the FCC assistance needed to bring the technology to market.*

During one part of the meeting, an important question was asked by Jean Kiddoo if the FCC possessed the requisite authority to mandate implementation of the Try Safety First technology. Not having memorized the actual code section, I was unable to provide exact reference at the time. Hence, I asked our legal counsel to provide such. Please find the attached memorandum.

Should you have any further questions, please call or email me at your convenience.

Regards,

John J. Fischer, CEO  
Try Safety First, Inc.
